# Message to our community

SSM Health St. Joseph Hospital - St. Charles, Lake Saint Louis and Wentzville, members of SSM Health, have delivered exceptional, compassionate care to St. Charles, Lincoln, and Warren Counties and beyond for 136 years. Inspired by our founding Franciscan Sisters of Mary and guided by our Mission – *Through our exceptional health care services, we reveal the healing presence of God* – we cherish the sacredness and dignity of each person as demonstrated through our Values of Compassion, Respect, Excellence, Stewardship and Community.

Our sustained community commitment can be seen through our collaborative partnerships with residents and organizations. We rely on these relationships to help us identify and develop plans to address high-priority community health needs. We are grateful for the opportunity to partner with the following organizations: BJC Healthcare, Mercy Healthcare, the St. Charles County Health Department, Volunteers in Medicine, United Way, Crisis Nursery, Compass Health, CRUSH, SCCAD, Youth in Need, the YMCA, EDC Business and Community Partners, United Services and Sts. Joachim & Ann Care Services

Over the last 12 months, in collaboration with our hospital and community partners, we have conducted our community health needs assessment by gathering health and social determinants of health data directly from our communities to identify greatest concerns as well as opportunities and ideas for addressing these concerns. As we develop our 2022-2024 community health improvement plans, we will look to a variety of strategies to address these needs based on the level of importance to community members and the hospitals' ability to truly make meaningful impact. Together, we can make a difference.

Sincerely,

Douglas Barton

# Executive Summary- St. Charles County

(SSM Health St. Joseph Hospital - St. Charles, Lake Saint Louis, Wentzville)

Under the Patient Protection and Affordable Care Act (PPACA) enacted in 2010, nonprofit hospitals are required to conduct a Community Health Needs Assessment (CHNA) every 3 years. In the CHNA process, it is also imperative that hospitals pay specific attention to health care concerns that affect vulnerable and marginalized populations. For the 2021 Community Health Needs Assessment, SSM Health followed standard processes, consistent with IRS regulations and standards.

## CHNA Process

Over a 12-month period, in collaboration with other local health systems (BJC, Mercy, St. Luke's and Shriners' Hospital for Children) and many other community partners, we conducted a community health needs assessment by gathering health and social determinants of health-related information directly from the communities we serve through a single, regional community survey, a single, regional stakeholder survey and focus groups. Due to the ongoing COVID-19 pandemic, all surveys and focus groups were conducted virtually. Of 2,915 total CHNA community survey responses, 655 were submitted from St. Charles, Warren and Lincoln County zip codes. Additionally, a total of 17 Stakeholder CHNA surveys were submitted by organizations serving St. Charles County.

Quantitative data from a variety of secondary data sources were also assessed, in addition to our own 2019 hospital utilization data, to further inform our 2022-2024 health priorities. Input received directly from our communities through surveys and focus group conversations have been incorporated to identify concerns about the health of our communities, the types of community-based programs, organizations and services that currently exist to address community needs, as well as to identify gaps and opportunities for the enhancement and advancement of services.

Each source of data: 1) Community Survey, 2) Stakeholder survey, 3) Secondary data and 4) Hospital utilization data, played an important role in helping to identify and prioritize health needs based on the level of importance to community members and the hospital's ability to contribute to measurable impact.

## CHNA Alignment with our Mission

At SSM Health, we know that healthy communities don't just happen. Improving community health requires long-range, strategic efforts that take into account the entire eco-system of health by also addressing social determinants of health including, social, economic, environmental as well as political factors. Through our subsequent community health improvement plans (CHIPs), we anticipate engaging in a wide-range of activities to address and support meaningful improvements within each identified health priority.

# About SSM Health and SSM Health St. Joseph Hospital St. Charles, Lake St. Louis and Wentzville

## SSM Health

SSM Health is a Catholic not-for-profit health system serving the comprehensive health needs of communities across the Midwest through a robust and fully integrated health care delivery system.

Headquartered in St. Louis, SSM Health has care delivery sites in Missouri, Illinois, Oklahoma, and Wisconsin. The

health system includes 24 hospitals, more than 300 physician offices and other outpatient care sites, 10 post-acute facilities, comprehensive home care and hospice services, a pharmacy benefit company, an insurance company, a technology company and an Accountable Care Organization.

With more than 10,000 providers and 40,000 employees in four states, SSM Health is one of the largest employers in every community it serves. An early adopter of the electronic health record (EHR), SSM Health is a national leader for the depth of its EHR integration.

Through our exceptional health care services, we reveal the healing presence of God.

## SSM Health St. Joseph Hospitals

### Highlights of services

The hospitals and ambulatory medical campuses are geographically distributed throughout the greater St. Charles community, offering a broad range of medical and surgical specialties in warm and welcoming environments.

### Community benefit

In 2020, SSM Health St. Joseph Hospitals collectively provided \$19 M in total community benefit, comprised of \$ 9 M in charity care; and \$8 M in unpaid costs of Medicaid and other public programs.

Examples of our community benefit programs include:

Fitness Forward, providing community fitness opportunities;  
Mother Odelia's Closet, providing clothing to patients in need; and  
Drug Take Back bins to remove unnecessary medications from cabinets.

### Community partnerships

We are proud to be part of community projects that work to improve health outcomes in the areas we serve:

# The CHNA Process: Many Parts Make a Whole

## Primary Data-Community CHNA Survey:

A single online community health needs assessment survey was available for community members across multiple service areas of all collaborating hospital systems, inclusive of Missouri and Illinois. The online community survey was available to complete from April 2021 through July 2021. This survey asked about people's personal health, their thoughts about the community's health, and provided sections for people to provide on ways to improve both individual and community health. The survey took an average of 10 minutes to complete with a total of 2,915 individuals completing the survey. A total of 655 responses were received from our St. Charles County service areas, accounting for 21% of survey responses

*Healthycommunities.org*

All respondents were asked to provide their primary zip codes, which were tagged according to the SSM Health and partner hospital CHNA community geographies (e.g., North St. Louis County, South St. Louis County, St. Louis City, St. Charles County). Community members had the option to submit open ended responses, comments and suggestions throughout the survey.

Community survey comments were analyzed, allowing us to identify the top-ranking suggestions for how to improve both individual and community health among South St. Louis County residents, many of which will be integrated within our subsequent Community Health Improvement Plans (CHIPs).

### **Primary Data-Stakeholder Survey:**

Community leaders were also engaged to complete the Stakeholder CHNA survey. Stakeholders included a diverse group of community professionals from organizations across St. Charles County and surrounding service areas, providing a vast array of critical services including health access, social needs, education and emergency services. Upon completion, surveys were analyzed through the survey platform in order to identify common themes. A total of 17 stakeholder surveys were submitted from organizations representing St. Charles County.

### **Primary Data-Hospital Emergency Department Utilization Data:**

According to a 2021 report by the Department of Health and Human Services on emergency department utilization trends, community members seek care in the hospital emergency departments for a wide variety of reasons, including problems with access to services in other settings as well as the challenge of determining the urgency of symptoms such as chest or abdomen pain without further diagnostics. It is important to assess the trends in usage and top reasons for which individuals are seeking care in the ED, as they provide critical insights on the health of the communities the hospital is serving, and thus, an extremely valuable contribution to the CHNA process.

Of the 201 St. Joseph Hospital emergency department health conditions assessed for 2019, several conditions in the top 25 most common conditions were closely associated with 2022-24 priorities of *Behavioral Health*, *Chronic Conditions* and *Overweight/Obesity*. These conditions include substance use disorders, psychosis and heart disease/failure.

**Secondary Data:** Secondary data was collected from multiple sources including The County Health Rankings, ExploreMoHealth, and Missouri Public Health Information Management System. Analysis of these data sources revealed not only the most burdensome health issues for the South St. Louis County region, but also health disparities and key issues impacting social determinants of health. Data assessed included demographic information, chronic disease and morbidity/mortality information, health status indicators, health behaviors and general environment information. This data is compared to state and national benchmarks.

Primary and secondary data were weighted in order to determine highest priority community health needs, based on importance to community members and the hospital's ability to make meaningful impact over the next several years.

This assessment and prioritized health needs were then presented to SSM Health St. Joseph Hospital, SSM Health St. Louis Regional and System, and SSM St. Louis Board of Directors for approval.

# Barriers to Healthcare

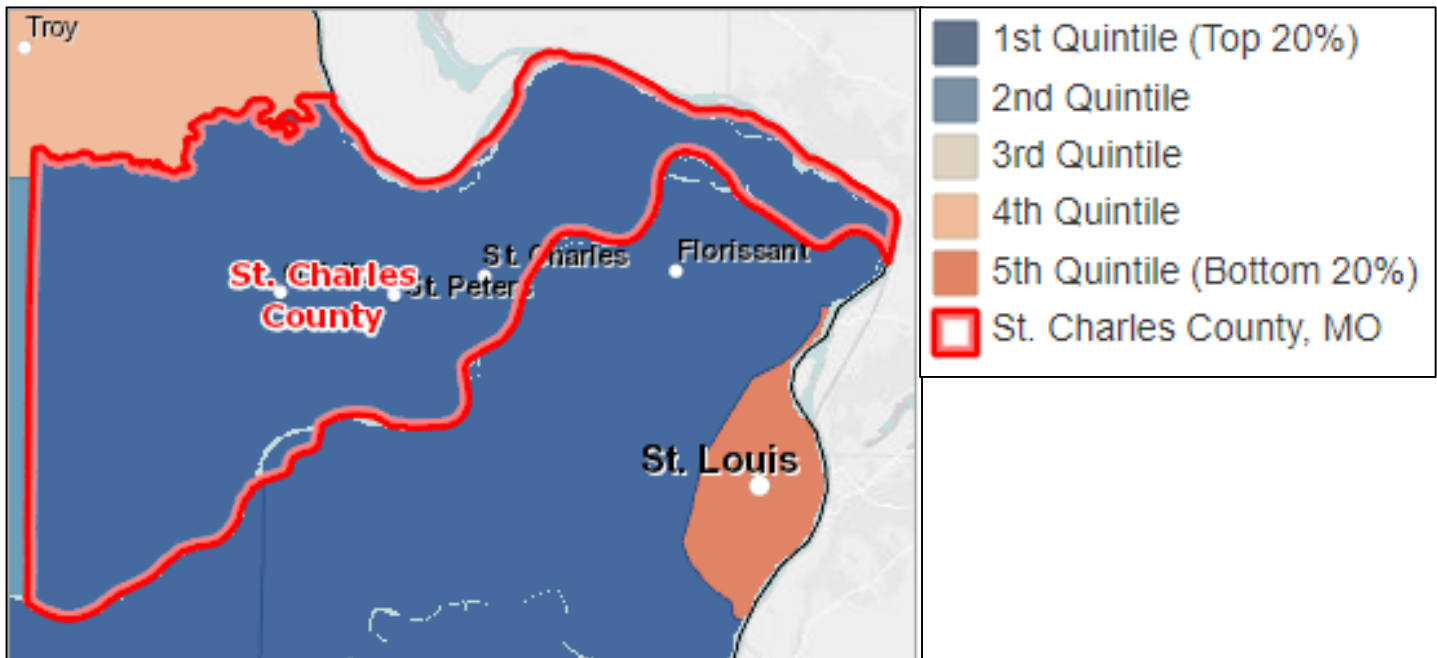

The National Academies of Sciences, Engineering, and Medicine defines access to health care as the “timely use of personal health services to achieve the best possible health outcomes.” It is important to address barriers that prevent or limit access to needed health care services, as this lack of access may increase the risk of poor health outcomes and health disparities. Top barriers to healthcare noted by St. Charles County survey respondents include costs/co-pays, scheduling problems, difficulty finding doctors and fear.

# Our Community's Health

## Combined Health Factors

According to the County Health Rankings, St. Charles County is one of the healthiest counties in Missouri after taking into account key factors that influence health including: 1) health behaviors; 2) clinical care, 3) social and economic factors and 4) physical environment. St. Charles County's ranking is in the top 20%.

## St. Charles County Responds-Solutions

The online CHNA survey consisted of 39 questions and took respondents an average of 10 minutes to complete. The final two questions, 38 & 39, offered respondents an opportunity to share their thoughts about best solutions for addressing barriers to optimal health. The word clouds below illustrate the solutions referenced most frequently by St. Charles County respondents.

**Q. 38** If you were able to implement one, single solution to improve your personal health, what would it be? (South St. Louis County Zip Codes)

# The Health of Our Community

Analysis of all data sources (community survey, stakeholder survey, secondary data and hospital utilization) highlighted the following health priorities for St. Charles County. As our health system moves towards the development of community health improvement plans (CHIPs) to address these priorities, we will also highlight data that points to geographic disparities in health outcomes and place emphasis on areas of our St. Charles county service regions experiencing the greatest burden related to these priorities.

### Population Receiving SNAP Benefits (ACS)

In the report area, an estimate 5,833 or 3.98% households receive Supplemental Nutrition Assistance Program (SNAP) benefits. The value for the report area is less than the national average of 11.74%. This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

## Appendix E: Online CHNA Community Survey

2021 St. Louis Metro Area Community Health Needs Assessment (CHNA)

**Dear Community Members:**

This survey is part of the St. Louis Metropolitan Area Community Health Needs Assessment (CHNA) conducted jointly by SSM Health, BJC HealthCare, Mercy, St. Luke's Hospital and Shriners Hospitals for Children St. Louis. The CHNA is conducted by the hospitals every 3 years.

Your responses to this survey are VERY IMPORTANT, because they will help guide local solutions and resource allocation for a variety of health and social issues.

Every Voice Counts! We want input directly from you about your health needs and the health of your community: What is going well? What needs improvement? What are some solutions?

The survey will take approximately 10 minutes to complete. All responses will be confidential and anonymous. We will only share combined (aggregated) results from the survey. Once you complete the survey, please share this link with your family, friends and neighbors!

Thank you for your participation and partnership- We are all in this together!

**\*Please do not write your name or any other identifying information\***
